

Looming Operation Murambatsvina 2

Demolition of houses a THREAT to Humanity.....

If the Government of Zimbabwe is allowed to carry on with its infamous Murambatsvina 2 in Chitungwiza and parts of the country, thousands of families will be left homeless in this rainy season. It is inhuman for the Government to demolish people's houses without a concrete clear alternative plan. Why now after elections?? The effects of the first Murambatsvina is still fresh in people's mind. Thousands of the 2005 victims never managed to secure decent accommodation to date. HZT yesterday visited some of the targeted areas in Chitungwiza and met up with affected families. Below are some of the houses targeted for demolition in New Zengeza 4, Unit O, P, J, N, M and extension, Seke rural and Manyame Park.
